## ORANGE HIGH SCHOOL

## ASSESSMENT TASK NOTIFICATION

| Subject | Year 10 5.2 Mathematics |
| :--- | :--- |
| Topic | Task 2 |
| Class Teacher | Miss Bulmer, Mr Gurjar |
| Head Teacher | Mrs Edwards |
| Year | $10 \mathrm{MA} 3,10 \mathrm{MA} 4$ |
| Date Given | $9^{\text {th }}$ of May, Period 2, Week 3, Term 2 2023 |
| Date Due | $23^{\text {rd }}$ of May, Period 2, Week 5, Term 2 2023 |
| Weighting | $30 \%$ |

## Assessment Outline

## In Class Examination - 1 Period

Assessment is an in-class exam. Students will need to bring a calculator.
Topics Covered:

| Measurement | Algebra and Indices | Probability |
| :--- | :--- | :--- |
| Units of measurement | Substitution | Experimental probability |
| Significant figures | Writing expressions | Theoretical probability |
| Scientific notation | Using the four operations with | Venn diagrams |
| Accuracy of measurement | algebra | Two-way tables |
| Pythagoras Theorem | Expanding brackets | Mutually exclusive and non- |
| Perimeter | Factorising | Multually exclusive events |
| Area and composite area | Multiplying and dividing algebraic | Arrays |
| Surface area of prisms, cylinders, | fractions | Tree diagrams |
| and composite surface area | Adding and subtracting algebraic |  |
| Volume of prisms, cylinders, and |  |  |
| fractions | Index laws |  |
| composite shapes | Nelume and surface area of a | Negative indices |
| sphere |  |  |

To Bring:

## - Calculator

## Non-completion of Task:

If you know you are going to be away on the day that the task is due, you must make alternative arrangements with your teacher beforehand. If you are suddenly away on the day that the task is due, you must contact your teacher or Head Teacher on your return to school. Documentation will be required in both classes.

## Plagiarism:

Plagiarism, the using of the work of others without acknowledgement will incur serious penalties and may result in zero award. Any cheating will also incur penalties.

Failure to follow the above procedures may result in a zero award.
The policies and procedures that are outlined on the ROSA booklet will be followed regarding the noncompletion of assessment tasks.

## Outcomes Assessed

MA5.2-1WM selects appropriate notations and conventions to communicate mathematical ideas and solutions

MA5.2-2WM interprets mathematical or real-life situations, systematically applying appropriate strategies to solve problems

MA5.2-3WM constructs arguments to prove and justify results
MA5.1-9MG interprets very small and very large units of measurement
MA4-13MG uses formulas to calculate the areas of quadrilaterals and circles, and converts between units of area

MA5.1-8MG calculates the areas of composite shapes, and the surface areas of rectangular and triangular prisms

MA5.2-11MG calculates the surface areas of right prisms, cylinders and related composite solids
MA4-14MG uses formulas to calculate the volumes of prisms and cylinders, and converts between units of volume

MA5.2-12MG applies formulas to calculate the volumes of composite solids composed of right prisms and cylinders

MA4-8NA generalises number properties to operate with algebraic expressions
MA5.2-6NA simplifies algebraic fractions, and expands and factorises quadratic expressions
MA5.2-7NA applies index laws to operate with algebraic expressions involving integer indices
MA5.1-13SP calculates relative frequencies to estimate probabilities of simple and compound events.
MA5.2-17SP describes and calculates probabilities in multi-step chance experiments
