

# ORANGE HIGH SCHOOL

## ASSESSMENT TASK NOTIFICATION

| Subject       | TAS -Agriculture       |
|---------------|------------------------|
| Торіс         | Broiler production     |
| Class Teacher | Campbell Carrol/Bright |
| Head Teacher  | D Wait                 |
| Year          | 9                      |
| Date Given    | Week 3 Term 2          |
| Date Due      | Week 6 Term 2          |
| Weighting     | 20                     |

### **Task Description:**

Biosecurity in the meat chicken industry is essential for animal health. The meat chicken industry has developed a national biosecurity manual for contract chicken growers. The poultry manual is specifically targeted at the meat chicken sector in Australia. To access this document search <u>National Farm Biosecurity Manual for</u> <u>Chicken Growers - Feb 2010 - web.pdf</u> Use this information and other sources including <u>www.chicken.org.au</u>, <u>www.poultryhub.org</u> and information you gather at school to complete the task.

#### All sections must be completed

#### Section A

- 1. Define Biosecurity and its importance for chicken producers
- 2. Explain the purpose of quarantine
- 3. Why does Australia need quarantine procedures particularly for the chicken industry?
- 4. Describe a range of processes chicken farmers have in place to minimise disease in their flocks

### Section B

Write a short (no more than one page) report of our school chicken production system and identify the biosecurity issues.

### Section C

Choose one area of biosecurity which is of concern in our school production system for example

- rodent control or feral bird control
- water hygiene
- personnel quarantine
- entry/exit procedures
- disease control
- record keeping
- Feed labelling
- 1. Identify a range of solutions or control measures for the identified issue
- 2. Create a workplace sign to display at the farm as part of your biousecurity solution.
- e.g. Hazard signs, Instruction signs, procedure poster, Safe Operating Procedure, Rule poster.

#### **Non-completion of Task:**

If you know you are going to be away on the day that the task is due, you must make alternative arrangements with your teacher beforehand. If you are suddenly away on the day that the task is due, you must contact your teacher or Head Teacher on your return to school. Documentation will be required in both classes.

#### <u>Plagiarism:</u>

Plagiarism, the using of the work of others without acknowledgement will incur serious penalties and may result in zero award. Any cheating will also incur penalties.

Failure to follow the above procedures may result in a zero award. The policies and procedures that are outlined on the ROSA booklet will be followed regarding the noncompletion of assessment tasks.

#### **Outcomes Assessed**

5.2.1 explains the interactions within and between the agricultural sector and Australia's economy, culture and society

5.3.4 explains and evaluates the impact of management decisions on animal production enterprises

5.4.3 implements and justifies the application of animal welfare guidelines to agricultural practices

| Section A             |   | Range  |
|-----------------------|---|--|
|                       |   |  |
| Biosecurity           | Thorough definition of biosecurity and links importance of  | 4  |
|                       | biosecurity to chicken industry.  |  |
|                       | Sound definition of biosecurity with some links made to the   | 2-3  |
|                       | chicken industry.   | 0.1  |
| Quarantine            | <ul> <li>Basic definition of biosecurity, no links made to the industry.</li> <li>Thourough explanation of quarantine.</li> </ul>   | 0-1 3  |
| Drocess               | <ul> <li>Basic explanation of quarantine.</li> </ul>  | 2  |
| 5100035               | <ul> <li>Quarantine addressed in limited detail.</li> </ul>   | 0-1  |
| Quarantine in         | Extensive explanation of Australian guarantine procedures and   | 8-5  |
| chicken               | importance to the Australian chicken industry.  |  |
| ndustry               | Sound description of Australian quarantine processes in the   | 2-4  |
|                       | Australian chicken industry.  |  |
|                       | Basic description of Australian quarantine procedures for the   | 0-1  |
|                       | Australian chicken industry.  |  |
|                       | Extensive description of at least 2 processes willing by the  | 10.0   |
| Minimising<br>disease | Extensive description of at least 3 processes utilised by the chicken industry to minimise the introduction or spread of  | 10-8   |
| 113C03C               | diseases in production facilities.  |  |
|                       | <ul> <li>Thorough description of 2-3 processes used to minimise the</li> </ul>  | 7-5  |
|                       | spread of disease in production facilities including examples.  |  |
|                       | <ul> <li>Sound description of some processes used in production facilities</li> </ul>   | 3-5  |
|                       | to minimise disease.  |  |
|                       | Basic description of disease control in chicken production  | 0-3  |
|                       | facilities.   |  |
| Section B             |   |  |
|                       |   |  |
| Description of        | Report style response which extensively describes the Orange     High Calculation and deptilize and identified a  | 15-10  |
| production            | High School (OHS) chicken production facilities and identifies a  |  |
