Here at Orange High School, we are lucky to work with and so many talented students. It is terrific to see our students regularly recognised beyond the school for their skills and dedication. **A special congratulations to some of our outstanding sport people who were nominated as Junior Sportspeople of the Year in the annual Orange City Council Sports Awards.**

Eva Reith-Snare - hockey

Bailey Ferguson - hockey

Chloe Barrett - hockey

Lauren Kerwick - triathlon

Ryan Bushel-Keegan - squash

One of the stories on high rotation during this week's nationwide news cycle was the annual national NAPLAN results release. At this stage, results have not been released to schools but we look forward to reviewing and learning from our students results in the coming weeks. One of the changes, that perhaps has not received the same level of publicity, is the requirement for an equivalent Band 8 NAPLAN result in reading, writing and numeracy in order for students to qualify for a HSC from 2020 onwards. This change will first affect students currently in Year 8. **It is important that parents and students don't panic should their results not tick that box in Year 7 this year or in coming years, as there will be support measures and online assessments developed at a state level to enable the standard to be met. Further, as a school, we are beginning to investigate a range of possible strategies that can be implemented at a local school level to support students achieve the set standard.**

**Many thanks also to our education partners at Charles Sturt University who have sponsored us with \$1000 of new science equipment.** Some of this will be used in our upcoming Science Show. Our Science Team will celebrate and share with our partner primary schools, and the general public, the importance of Science Technology, Engineering and Mathematics (STEM) to our future community health, wellbeing and living standards.

# HEARING LOOP

During the Term 2 holiday break Orange High School had two Hearing Loops installed to assist students (and members of the public) who have a hearing impairment. The Hearing Loops were installed in the Gym and the Performing Arts Centre. The Hearing Loop in the Music Centre was also turned on.

The installation of this system enables students with a hearing impairment more equitable access to sound via a wire 'Loop' that circles the room and is connected to a sound system. The loop transmits the sound electromagnetically. The electromagnetic signal is then picked up by the telecoil (wireless antenna) in the hearing aid or cochlear implant. Students are able to use a hearing loop by turning on the T-switch on their hearing aid or cochlear implant activating the telecoil.

## NSW Junior Chess League

Orange High School students played James Sheahan in the quarter finals of the Junior Chess League (2nd division) last Friday lunchtime.

Although all the students had a lot of fun, and all played well, we went down to James Sheahan 3 tables to 1.

# Inspired by Lorin

OHS students were treated to a presentation by Lorin Nicholson . Lorin is an extremely talented motivational speaker who spoke about his life experiences, about being blind since birth and the obstacles and challenges he has overcome throughout his life.

Despite his disability, Lorin is an award winning musician, record breaking cyclist & best selling author and is now using his life experiences to encourage and motivate students all around Australia to strive for their goals and to never give up!

Thankyou Lorin for visiting Orange High School!

## THE BUZZ

If you have any school uniforms you no longer need, and they are in good condition, I would love to put them in the clothing pool. We have a small clothing pool available to families that need a little extra help with uniform. These families are always so grateful to accept uniforms from generous families. Items can be dropped into my office or left at the front office for me to collect. Thank you in advance.

A FESTIVAL OF ART, MUSIC, DANCE & LIGHT

*all abilities... all together*

\*\*\* We invite the whole Orange community to get involved. \*\*\*

**luminosity**

A celebration for everyone in our community  
Registrations commence July 18

Participants are invited to attend art and singing/music workshops every Saturday afternoon at the Orange PCYC from September 3, and/or midweek dance/movement workshops held at Canobolas High. The workshops will then culminate in a single performance on November 25 - a magical evening of lanterns, music, dance and art under the stars at the Orange Botanic Gardens. The journey itself will be filmed, and this documentary of "The Journey" will be screened on the night after the main event.
